

## **Center of Excellence & Academia in Palo Alto – Cybersecurity**

Our institution has partnered with Palo Alto Networks to establish a Center of Excellence & Academia in Cybersecurity. This initiative aims to provide students with world-class training, certifications, and industry exposure in the fast-growing domain of cybersecurity.

### **Objectives:**

Deliver hands-on training in next-generation firewall, network security, and cloud security.

Offer Palo Alto industry-recognized certifications to enhance student employability.

Bridge the gap between academic learning and real-world cybersecurity challenges.

Promote student projects, research, and innovation in cyber defense.

Conduct seminars, hackathons, and expert talks by industry professionals.

### **Outcomes:**

Students become job-ready cybersecurity professionals with global skills.

Opportunities for internships, projects, and placement in reputed companies.

Build a secure digital ecosystem through academic–industry collaboration.

Empower students to tackle emerging cyber threats with confidence.
